Retreat

Integrating the Arts with Social-Emotional Learning

Developing our students' Social and Emotional needs is becoming more and more necessary. The ARTS can be an integral part of this learning for them. During our time, we will explore how **visual art, music and other art forms** can be integrated into what we do with students. Along the way, we will learn activities to use to promote Wellness and the SEL Competencies including, **yoga, poetry.**

As always, we will experience these art forms for ourselves and how they can develop our own Social-Emotional Competencies. After all, our motto remains that we need to **GET Inspired in order to BE Inspiring!**
