

# Arts Integration and STEAM Retreat

## The Focus Workshop, Shine Brightly with LEDs in Art with Stacie Greenland

includes three graduated sessions of art-making that include simple electric circuits powering light-up elements to make your art shine! Each day we will try something new as we “level up” the art experience: 2D, 3D and textiles!

## Workshop 1 – Having a Ball with Taylor Carroll and Kelley Gordon

Balls. Everyone loves them. Now you can use them as a creative hands-on way of teaching and assessing while bringing joy to the classroom. Learn to make several types from the simple pom-pom to the highly artistic wool felted ball. Toss ‘em in math, spelling, music, and ELA. Use them to address social issues in the classroom, improve storytelling, and for conducting improv activities in theater or music. The list goes on and on.

## Workshop 2 – Ink by the Ocean with Jennifer Santa-Maria

Learn and explore techniques in painting with alcohol ink- the ink found in sharpie markers. Use gravity to manipulate the fluid as forms spread. Organic shapes of color emerge when the paper is wet with rubbing alcohol. You will learn all the basics of using alcohol inks and create abstract or representational work. And what a beautiful experience it will be to create this outside, by the ocean!

## Workshop 3 – Dancing Content with Elizabeth Peterson

Content vocabulary and the overarching ideas of your curriculum can sometimes be challenging for students to understand and remember. We will learn how to integrate basic dance elements with a variety of content so that learning is highly engaging and memorable.

August 5th,  
6th & 7th,  
2019  
8-3:30  
Location:  
Ashworth by  
the Sea,  
Hampton  
Beach, NH

*“The retreat is a gift I give myself to rejuvenate my passion for teaching just as we begin a new school year.” Julie O.*
